

2021 SPANISH ENERGY STORAGE CONFERENCE

114KWh ESS

What is Spain's energy storage strategy? Spain's government has approved an energy storage strategy that it says will put the country at the forefront of what is being done in Europe and help it move towards its 2050 climate neutrality target. The roadmap foresees the country ramping up its storage capacity from the current 8.3GW level to 20GW by 2030 and then 30GW by 2050.

When is the energy storage global conference 2021? The fourth Energy Storage Global Conference takes place on 19 - 21 October 2021 for the first time as a hybrid event, in-person at the Hotel Le Plaza in Brussels* and online. The event is organised by EASE - The European Association for Storage of Energy, with the support of the Joint Research Centre of the European Commission.

What is Spain's Integrated National Energy & Climate Plan 2021-2030 (PNIEC)? The roadmap follows the recent publication of Spain's Integrated National Energy and Climate Plan 2021-2030 (PNIEC), which foresees the staggered introduction of battery storage installations into the system to maximise the capacity of non-dispatchable renewable technologies.

114KWh ESS

What is the energy storage strategy? The Strategy is part of the set of actions planned to meet the objectives established in the National Integrated Energy and Climate Plan 2021-2030 and the Long-Term Decarbonization Strategy and envisages having a total energy storage capacity of around 20GW in 2030 and 30GW by 2050, when the current capacity stands at 8.3 GW.
