These traditional saddle brackets can be used with all our 48.3mm Tube and all of our 48.3mm Stainless posts if not supplied as standard. They need to be glued in to the top of the post, the handrail then sits on top and needs to be pilot drilled and fastened with M5 pan head screws Fixed Mid/End Adjustable Mid/End for Outdoor Solar & Post

The square tubing is attached to the rails with a short (~ 3") piece of square tube as a spacer sitting on the rail and a 5/16" elevator bolt with the head ground down slid into the rail and coming up through the spacer tube and the cross tubes, which have a nylock nut on top. I mounted the panels to the tubing using the Renogy brackets.
