

ANGOLA OUTBOUND SOLAR

What is the Angola solar project? The Angola Solar Project creates new opportunities for Angolan communities that will no longer be forced to rely on and pay for gasoline or diesel generators. Each one of the five projects that comprises the Angola Solar Project will supply the needs of 500,000 Angolan homes, mainly in rural areas.

What is the Angolan government's \$1.5bn mini-grid energy project? The Angolan Government and Sun Africa signed an MoU for a \$1.5bn mini-grid energy project on September 20th, in the presence of President João Lourenço. Earlier this year, the consortium of Sun Africa, MCA Solar Angola and Hitachi ABB Power Grids broke ground on 370 MW of solar PV projects in Angola.

Will Angola get 60% electricity by 2025? Angola has set a target of 60% access to electricity by 2025 under the strategic plan Vision 2025, of which solar is poised to play a central role. Supporting electrification as well as diversification, solar projects are being rolled out by the government alongside international partners and project developers.

How many MW of solar power will be installed in Angola? The projects will be installed in the Moxico, Lunda Norte, Lunda Sul, Bie, and Malanje provinces, adding 296 MW of solar capacity and 719 MWh of battery energy storage system to the Angolan grid. The facilities will provide electricity to power one million consumers. Clean energy firm MCA Group has been tasked with the construction of the projects.

Who backed Sun Africa's 370 MW solar PV project in Angola? Sun Africa was awarded the prestigious "ECA/DFI-backed deal of the year" by "TXF Perfect 10" for Sun Africa's 370 MW solar PV project in Angola. Sun Africa initiated this project, developed it, and arranged long-term financing. At 188.88 MWdc, the Biopio site in Benguela is the largest single solar PV project in Sub-Saharan Africa.

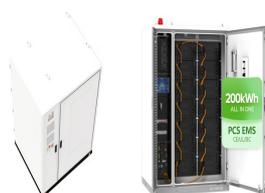

ANGOLA OUTBOUND SOLAR

What makes Angola a good country for solar power? Abundant sunshine, high solar radiation levels and a low electrification rate make Angola conducive to the development of solar photovoltaic power. The country's first solar power plants, located in Bié and Baía Farta, were inaugurated in July 2022 and will supply electricity to 1.5 million households.

Angola has significant solar potential; it is estimated that the country has 16.3 GW of solar power resources. The Ministry of Energy and Water has identified sites and is actively moving towards commissioning new facilities.

O acesso à energia em Angola é limitado a menos de 48% da população [i] com um acesso inferior nas zonas rurais, onde a madeira e o carvão vegetal continuam a ser a principal fonte de energia e de subsistência. Por este motivo, as mulheres que vivem nestas zonas passam grande parte do seu tempo a recolher estes recursos de biomassa e a utilizá-los para cozinhar.

Angola localiza-se na costa Ocidental do Continente Africano, mais concretamente entre as latitudes 4°-18°S e longitudes 11°-24°E. O país ocupa uma área de 1.246.700 km² com uma população de 30 milhões. Possui um grande potencial hídrico, elevados níveis de radiação solar e recursos eólicos e de biomassa de diferentes fontes. A disponibilização destes

recursos de energia. Sonangol, Total Eren e Greentech fazem parceria para projecto solar "Quilemba". A petrolífera Sonangol, a Total Eren e a Greentech - Angola Environment Technology anunciaram que celebraram um acordo de parceria para o projecto solar Quilemba, de 35 megawatts-pico (MWp), em Angola.

LUANDA, July 21, 2022 ??? US solar developer Sun Africa and Portuguese construction company M. Couto Alves have inaugurated their 188.8-MW Bi?pio photovoltaic solar plant in Benguela, Angola, local sources announced Wednesday. The development consists of around 509,000 solar panels and is the largest single solar photovoltaic project in Sub-Saharan Africa, with an ???

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource database.

Sobre a Solar Turbines Angola. A Solar Turbines Angola ? uma subsidi?ria integral da Caterpillar Inc., projetada e fabricada para gerar energia el?trica onshore e offshore, para propuls?o mar?tima e ???

A central solar fotovoltaica do Bi?pio ? a maior das sete centrais a serem constru?das em seis das 18 prov?ncias do pa?s, nomeadamente em Benguela, com duas - incluindo a do munic?pio da Ba?a Farta (96,7 MWp), na Lunda Sul (26,91 MWp), no Moxico (26,91 MWp), no Bi? (14,65 MWp), no Huambo (7,99 MWp) e na Lunda Norte (7,2 MWp).

Esta infraestrutura, com uma pot?ncia instalada de 25,3 MWp, foi constru?da pela MCA e ir? abastecer 59 483 pessoas. Este ? o quarto parque solar entregue, de um total de sete, que a empresa portuguesa est? a construir em Angola. "? com enorme orgulho que entregamos o quarto parque solar em Angola.
