

ARCON ENERGY WESTERN SAHARA

Will Morocco double green electricity production in Western Sahara? (Bloomberg) -- Morocco, buoyed by recent foreign recognition of its rule over Western Sahara, plans to double green electricity production in the disputed territory to meet growing demand before it co-hosts the 2030 FIFA World Cup.

What is Western Sahara's green power capacity? Western Sahara's current green power capacity is about 1.3 gigawatts, or about a quarter of the nation's total renewables capacity. A project to develop a 3-gigawatt cable linking renewable plants in the territory to central Morocco has attracted interest from private investors, said the official.

What happened to Cairn Energy? Israel's NewMed Energy today announced it has signed a deal with Morocco to produce natural gas offshore Boujdour, bringing former Cairn Energy back into the occupied territory. Picture: In 2015, Cairn Energy and Kosmos Energy drilled for oil offshore Western Sahara on the Boujdour block. Now Cairn is linked to new drilling plans.

Who is involved in hydrocarbon exploration in Western Sahara? There are today two companies involved in hydrocarbon exploration in Western Sahara - both are from Israel.
