

AVANT GARDE ENERGY TOGO

What is avant garde innovationstm? Our Goal is to Enable 100% Clean & Affordable Energy for All. The collective challenge before our world is to power over a billion people who are currently underserved. Avant Garde Innovations ??? is an international startup company established in India, with a ???Green??? heart & soul.

How is rural electricity steered in Togo? In Togo,rural electricity projects are steered by the Rural Electrification and Renewable Energy Agency. Several companies,including BBOXX,EDF,and Sun King-Soleva,are actively working to promote universal access to electricity by developing innovative technologies and providing solar energy services to communities not connected to the grid.

Will Togo achieve universal electricity access by 2030? Based on the literature,the Togolese national development plan,and discussions with the key energy sector,the government is now conscious of the situation and is taking initiatives to increase electricity access in Togo and plans to achieve universal access by 2030(Togo PND 2018; AT2ER 2019).

Can solar PV and hydropower improve the energy situation in Togo? With a three rounds Delphi method,the study captured the view of key stakeholders on the subject matter. It has been concluded that increasing the share of RE,namely solar PV and hydropower,could significantly improve the energy situation in Togo. This could be through the installation and development of small-scale solar plants and hydropower.

What will be a new power plant in Togo? Another addition will be the planned coal-fired thermal power plant,the international and regional connection program with 2 transmission lines of 330???KV and 4 transmission lines of 161???KV,the construction of a 10???MW solar plant in Mango,and 5???MW in Kara (Togo PND 2018).

AVANT GARDE ENERGY TOGO

What kind of energy does Togo use? Togo relies on biomass energy 71% (firewood, charcoal, vegetable waste etc.), petroleum products (26%), and electricity (3%) (African Development Bank Group 2015).
