

BADGER ENERGY MAURITANIA

What is Badger Energy? Badger Energy is a master distributor of multi award-winning renewable energy products, established in 2020 with a mission to stimulate business-led market interventions, advancing a low-carbon economy throughout the EMEAA region.

Should Mauritania start a green hydrogen sector? Source: CrossBoundary, based on bp Energy Outlook 2022. To fully capitalise on Mauritania's energy transition potential, the move to establish a green hydrogen sector needs to be accompanied by sector-specific institutional and regulatory frameworks.

Can Mauritania generate low-cost electricity and hydrogen through electrolysis? Renewable Energy Opportunities for Mauritania finds that the country could deploy these resources at scale to generate low-cost renewable electricity and hydrogen through electrolysis.

Can Mauritania export hydrogen? The report outlines three possible pathways for Mauritania to export renewable hydrogen: shipping hydrogen to global markets in the form of ammonia; coupling existing iron ore mining with renewable hydrogen to produce higher-value direct reduced iron for export; and transporting hydrogen to Europe through a pipeline connecting Mauritania to Spain.

Can Senegal & Mauritania become a gas exporter? As a joint project, both Senegal and Mauritania's governments hold stakes through their state-owned enterprises Petrosen and SMH. Becoming a gas exporter through the GTA project could boost Mauritanian public revenues and position the country as a new player in global energy markets, especially as demand for gas increases.
