

# BANDAR SERI BEGAWAN ENERGY STORAGE EMERGENCY RESCUE

How can Brunei support future energy security? To support future energy security, Brunei should continue to strengthen upstream in order to meet the country's production target. Brunei should continue to support research, development, and demonstration activities as well as promote technology transfer on EEC and renewable energy.

Can a waste-to-energy facility be used in Brunei? Brunei's government is planning to utilise a waste-to-energy facility. This facility is expected to have an installed capacity of up to 10 MW. Whether other alternative energy sources such as wind power, hydro power, and ocean are economically and technically feasible in the medium term and the long term is still being researched.

What can Brunei do to reduce energy supply? The primary energy supply reduction is focused on fossil fuel supplies for inland use, such as fossil fuel for power generation. Brunei should continue to strengthen its efforts to promote standards and labelling for products and appliances, raising awareness of EEC, as well as implementing EEC Building Guidelines for Non-residential buildings.

Where is Brunei Darussalam located? Brunei Darussalam is located on the north-west coast of Borneo Island in Southeast Asia. The country's proximity to the South China Sea provides it with access to one of the important trade corridors in the world.
