

BELGIUM ROSEN LITHIUM BATTERY

A valve-regulated lead-acid battery (VRLA battery) sometimes called sealed lead-acid (SLA) or maintenance free battery.. There are three primary types of VRLA batteries, sealed VR wet cell, absorbent glass mat (AGM) and GEL cell. Gel cells add silica dust to the electrolyte, forming a thick putty-like GEL. These are sometimes referred to as "silicone batteries".

Rosen Solar AGM series are valve regulated lead-acid cells which use a combination of tubular positive plate woven gauntlets, pasted negative plate design and AGM electrolyte using advanced filling techniques in production which assure superior service life and excellent battery reliability. The battery has excellent cyclic performance and charge acceptance ability.
