The RD-BESS1500BUN is a complete reference design bundle for
 high-voltage battery energy storage systems, targeting IEC 61508, SIL-2
 and IEC 60730, Class-B. The HW includes a BMU, a CMU and a BJB
 dimensioned for up to 1500 V and 500 A, battery emulators and the
 harness. The SW includes drivers, BMS application and a GUI.

Meanwhile, a 1MW / 3.2MWh Powin Energy BESS has been installed at Israel's first utility-scale microgrid energy storage project, at a kibbutz. The project was done in partnership with BL Energy, a subsidiary of Blilious Group, an Israeli company active in areas including automotive product imports, public transport, real estate and energy

BESS (formerly known as SoftNIC) is a modular framework for software switches SS itself is not a virtual switch; it is neither pre-configured nor hard-coded to provide particular functionality, such as Ethernet bridging or OpenFlow-driven switching. Instead, you (or an external controller) can configure your own packet processing datapath by composing small "modules".

The predecessor of Mikveh Bess Israel, the Hebrew Women's Club of Hartford, was founded in 1927, had to litigate itself into existence against the protests of its neighbors and finally opened in 1932 on Magnolia Street. We have found mention of two mikvaot from the late 1920's that the Magnolia street facility replaced. One is referred to as
