I'll be releasing AI Upscaled mods in batches of 10. The first will drop by or before this weekend. There will be NO batch-processing of textures. Each texture is getting upscaled by hand to ensure the correct settings are used for each. I am capping each texture at 4x Scale to ensure no one texture becomes too large.

Yeah, looks like the 2d stuff is fine for you but some of the 3d is indeed not being applied, I actually had a similar issue when I tried using my old tactics ogre pack on the current version, on the current version of ppsspp the conversation text doesnt upscale in my tactics ogre pack, but in 1.13 the using the same pack the conversation text upscales fine like everything else.

I selected a few scenes from the Avatar movie, upscaled them to 4K with the Topaz Video Enhance AI and tried to edit them together in a nice and coherent way. Hope you like it. Source material for the upscale was the original extended cut Blu-ray. The upscaling was performed by the Artemis High Quality v11 model of Topaz Labs" Video Enhance AI.

upscaled textures which were all very low res. Wanted to make sure all players could notice a difference (but these pics are still from 4K version) One with no mods at all. One just with ds2lightingengine. And one with lighting engine mod and my textures. So people get the full effect of what each bring to the table Reply

After downloading 2 texture packs to get all the best textures I decided to pack it up for you in one easy archive. I unpacked the base folder from the "all in one" pack and I removed the barrel model that causes problems. Then I merged the UltimateHD files in without overwrite. This gives us the UltimateHD barrel instead of the buggy one.

How many other people would seed a 1.5TB torrent tho, theres barely any seeders for the 300gb complete(ish) packs of The Simpsons and Doctor Who ive got, and youd think

There is also one thing I find important to mention before someone else asks; this does not include anything from either the current era of Top Gear, nor The Grand Tour. Mainly because there are already many outlets in which one can obtain these shows in perfect quality and full length, whether that's legal or illegal.
