

# BVES ENERGY STORAGE TECHNOLOGY

What does Bves stand for? Energy Storage Systems Association(BVES) represents the interests of companies and institutions with the common goal of developing,marketing and deploying energy storage systems in the sectors of electricity,heat,and mobility.

What does Bves do? As a technology-neutral industry association,BVES serves as a dialogue partner for policy,administration,academia,and the general public. We keep an eye on the market,research and politics for you. In our industry updates,we keep you informed about the latest developments.

Could energy storage be the fourth pillar of the energy transition? Image: SMA. There could be energy storageshould be the vital fourth a??pillara?? of the energy transition,a private membersa?? and stakeholdersa?? meeting by Bundersverband Energiespeicher (BVES),an energy storage trade association representing companies across Germany,heard.
