---

Who makes Canadian solar panels? Headquartered in Ontario, Canadian Solar Inc. is one of the leading solar manufacturers in Canada. Founded in 2001, the company has successfully delivered over 52 GW of solar modules to customers worldwide. Known for its high-quality solar panels, Canadian Solar Inc. offers a variety of products, from standard solar panels to smart DC modules.

Is Canadian Solar a good solar company? Canadian Solar is one of the 5 biggest solar panel manufacturers in the world, with 20 years in business, and SolarReviews has named the company the fifth-best solar manufacturer of 2024. The company's residential solar panel lines are HiKu, HiKuBlack, and HiKu6, giving homeowners options in terms of performance and price.

Where are Canadian solar modules made? That said, the vast majority of Canadian's module manufacturing is done in China. In addition to the Chinese and Canadian facilities, Canadian Solar also manufactures various solar materials in Indonesia, Vietnam, and Brazil. Canadian Solar was founded in 2001 by Dr. Shawn Qu, making it a relatively old solar manufacturer.

Who is Canadian Solar? Canadian Solar is a globally recognized solar panel manufacturer with a significant presence in Canada. Founded in 2001, this company has established itself as a leader in the solar industry, providing high-quality photovoltaic modules and solar energy solutions worldwide.

What types of solar panels does Canadian Solar produce? Canadian Solar produces high efficiency monocrystalline and polycrystalline solar panels. In August of 2019, all of Canadian Solar's cell capacity was upgraded to mono-PERC or multi-PERC.
