

CGN MONROVIA ENERGY STORAGE

How does CGN contribute to China's green energy transition? CGN expanded its domestic capacity by 11.53 million kW, further advancing its clean energy portfolio. As of the end of 2024, CGN's operational clean energy capacity has surpassed 100 million kW, and the company generated over 360 billion kWh of electricity, contributing significantly to China's green energy transition, it said.

Why did CGN invest in innovation in 2024? In 2024, the company significantly ramped up its investment in innovation, dedicating 5.95 billion yuan (\$810 million) to research and development, underscoring CGN's commitment to advancing technological breakthroughs and enhancing its competitiveness in the global energy sector, said Li Li, board director of the company.

What does CGN stand for? A view of the booth of China General Nuclear Power Group during an expo in Shanghai. [Photo/China Daily] China General Nuclear Power Corp (CGN) made significant strides in expanding its international clean energy operations in 2024, marking key strategic breakthroughs in Laos, South Africa, Thailand and elsewhere.
