

CONGO REPUBLIC LITHIONICS BATTERY LLC

What voltages does lithionics battery offer? Lithionics Battery(R) offers battery solutions at 12V,24V,36V,48V,51V 72V,96V,144V along with customer specified voltages! Suitable for inverted hotel loads,trolling,electric propulsion,bow thruster and all your electric or hybrid marine needs. Low Speed Electric Vehicles & Automatic Guided Vehicles

What is lithionics battery's Neverdie(R) battery management system? Lithionics Battery(R)'s NeverDie(R) Battery Management System is a proprietary design featuring protective safety features, as well as status and state-of-charge monitoring. The NeverDie(R) Battery Management System is standard on all Lithionics Battery(R) systems to ensure your lithium batteries are operated within their rated specifications.

What is lithionics battery(R)? Unlike many competitors, Lithionics Battery(R) uses a military grade proprietary contactor (UL508 tested to 6,000 hot-switching cycles) for BMS on/off switching. This allows for continuous current ratings of up to 400A to match the high performance of your lithium battery module.

How do I connect my lithionics battery? Lithionics Battery(R) recommends the use of our UL listed Plug & Play connector systems for quick and safe installation of our battery systems. The Plug & Play system features our parallel combiner box for parallel connections, or a series wire harness for series connections.

How safe is lithionics battery(R)? This naturally safe chemistry is paired with an internal shut down curtain technology inside each lithium cell, preventing any flame or explosion from thermal runaway events. Lithionics Battery(R) recommends the use of our UL listed Plug & Play connector systems for quick and safe installation of our battery systems.
