

CROATIA ENERGIZER POWER STATION

Who owns a power station in Croatia? All power stations in Croatia are owned and operated by Hrvatska elektroprivreda (HEP), the national power company. As of 2015, HEP operates 26 hydroelectric, 4 thermal and 3 cogenerating power plants with the total installed electrical power of 3.654 MW.

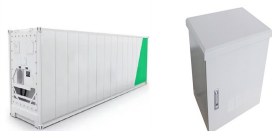

Does Croatia have a nuclear power plant? Croatia has no nuclear power plant on its territory, but co-owns the Krško Nuclear Power Plant together with Slovenia. The Krško plant was built in the era of Yugoslavia on the territory of present-day Slovenia. Planned decommissioning is by 2043.

How is energy used in Croatia? Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

What percentage of Croatia's energy mix is renewable? Renewable energies account for approximately 31.33% of Croatia's energy mix. Hrvatska elektroprivreda (HEP) is the national energy company charged with production, transmission and distribution of electricity.

Is Croatia dependent on electricity imports? Croatia is somewhat dependent on electricity imports, depending on hydrological conditions. However this is partly due to the fact that the Krško nuclear power plant in Slovenia, of which HEP owns 50 percent, also contributes to Croatia's electricity supply but is counted under imports in the statistics.

How many hydropower plants are there in Croatia? Croatia has 28 hydropower plants of which 2 are reversible, 2 small size and 1 pumped storage. They are distributed in three production areas: North, West and South with one independent plant, and are HEP's most important source of

CROATIA ENERGIZER POWER STATION

With the Energizer power station, you're looking at 13.6V DC power right at the battery. Even as it drains down, it never goes below 11.5V. So it doesn't need a built-in 12V power supply to regulate or step up power, which means less wastage of energy. Other power stations with li-ion batteries have to use some battery energy for the
