What is PV bracket industry chain? complete PV bracket industry chain of high-end raw material manufacturing Won the first place in China PV mounting enterprise for five consecutive years With more than 1,700 employees worldwide This is the 800MW photovoltaic power generation project of China Resources Finance, Gold and Red Light Fishery.

How many production bases does solar power company have? The company operates threemajor production bases,encompassing nearly 50,000 square meters of production area. Its main business includes various photovoltaic fixed ground mounting structure,distributed mounting structure,tracking photovoltaic mounting structure,building mounting structure,and distributed power station development,etc.

Can versol mount a photovoltaic power station? Versol's V-Basic mounting system can be applied to photovoltaic power stationin different terrain and environment. The product range includes a wide range of models and styles,and is highly adaptable.

What is China's first ultra-high altitude photovoltaic demonstration base? In 2022,the first batch of power generation units of China's first ultra-high altitude photovoltaic demonstration base project - Sichuan Ganzi Xingchuan demonstration photovoltaic power station,broadcasted by Newswire,were connected to the grid,marking the official commissioning of the base. Come as promised.

In addition, for the problem of Water Leakage often market has been of concern to the roof in the product, the color steel roof photovoltaic bracket in the research and development of Wanhos (fixture), the butyl waterproof pad is added in the fixture, can reach one hundred percent of anti Water Leakage, exempt from any menace from the "rear" roof leakage water to customers.

The Distributed Photovoltaic Bracket is a bracket structure specially used to install and support distributed photovoltaic systems. It is designed with a focus on flexibility, lightweight and safety . This kind of bracket needs to adapt to various roof structures, including flat, inclined, curved, etc., to ensure stable installation of
