

DUODUOMA ENERGY STORAGE POLICY ADJUSTMENT DOCUMENT ANNOUNCEMENT

What is the 'guidance' for the energy storage industry? Based on the above analysis, as the first comprehensive policy document for the energy storage industry during the ???14th Five-Year Plan??? period, the ???Guidance??? provided reassurance for the development of the industry.

What is the 'guidance on accelerating the development of new energy storage? Since April 21, 2021, the National Development and Reform Commission and the National Energy Administration have issued the ???Guidance on Accelerating the Development of New Energy Storage (Draft for Solicitation of Comments)??? (referred to as the ???Guidance???), which has given rise to the energy storage industry and even the energy industry.

Do policy adjustments affect energy storage technology investments? The findings of this study are as follows: 1) The frequency of policy adjustments and the magnitude of subsidy adjustments can both influence energy storage technology investments, but the magnitude of subsidy adjustments is more significant.

Are energy storage subsidy policies uncertain? Subsidy policies for energy storage technologies are adjusted according to changes in market competition, technological progress, and other factors; thus, energy storage subsidy policies are uncertain. In this section, the investment decision of energy storage technology with different investment strategies under an uncertain policy is studied.

Will phase-down policy increase energy storage investment thresholds? With an increase in adjustment policy frequency or subsidy magnitude under the phase-down policy, although the investment threshold of energy storage technology will all rise, the rise in investment thresholds is significantly different. Policy implementation should use more long-term, stable incentives.

DUODUOMA ENERGY STORAGE POLICY ADJUSTMENT DOCUMENT ANNOUNCEMENT

Will energy storage change the development layout of new energy? The deployment of energy storage will change the development layout of new energy. This paper expounds the policy requirements for the allocation of energy storage, and proposes two economic calculation models for energy storage allocation based on the levelized cost of electricity and the on-grid electricity price in the operating area.

On October 11, 2017, China released its first national-level guiding-policy document covering energy storage. The document, "Guiding Opinions on Promoting Energy Storage Technology ???

Grid side energy storage emphasizes the role of new energy storage on the flexible adjustment capability and safety and stability of the grid, improving the power supply capacity of the grid, emphasizing the emergency ???
