ENERGIX ENERGY MALTA

As of 2017, most of the electricity generated in Malta was from natural gas, with oil as a backup. [3] Natural gas has only been used for generation on Malta since CCGT systems were installed at Delimara Power Station in 2015, [4] before which oil was the main fuel used. Oil has been the primary fuel for electricity generation for many decades before 2015, although Malta also ???
