Thus, more and more players are investing in BESS while striving to reach their net zero targets and other climate-friendly goals. Some of the largest Battery Energy Storage Systems worldwide can even power thousands of homes for hours or even days. As per one report, the global battery energy storage market size was \$9.21 billion in 2021.

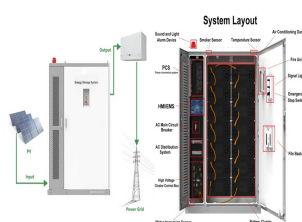

The company offers turnkey energy storage systems for connection to medium- or high-voltage grids. In 2014, it announced a partnership with Chinese battery manufacturer BYD to jointly develop new solutions for energy storage. ABB offers a range of battery energy storage systems for solar applications, including residential applications such as
