Why is intelligvent designed for outdoor ESS cabinets? Intellivent is designed for outdoor ESS cabinets, which have very small interior free air volumes due to the design of maximizing battery density in the enclosure. These small free air volumes make ensuring any flammable gas remains below 25% of the LEL a significant challenge.

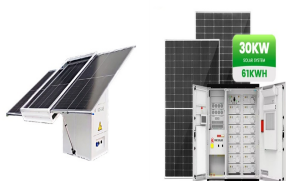

What is energy storage system? All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, commercial areas, housing communities, micro-grids, solar farms, and more.

What are the applications of energy storage system? All-in-one, high-performance energy storage system for various industrial and commercial applications.
