What is the Liechtenstein group doing with glide energy? The Liechtenstein Group recently entered into a joint venture agreement with Spanish solar PV developer Glide Energy with the aim of developing several photovoltaic and battery storage projects in Spain totaling at least 150 MWp. For the Liechtenstein Group, this investment is a further step towards

What is Spain's battery storage market? Spain's battery storage market is dominated by customer-sited systems. Utility-scale storage remains nascent. Currently, Spain's storage market is mainly composed of small-scale batteries co-located with solar PV. Spain's household electricity prices now stand at over EUR 0.30/kWh on average.

How will the European Commission support large-scale energy storage in Spain? The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. Subsidies will be available for standalone energy storage sites, projects installed alongside renewable energy facilities, and storage planned as part of thermal power plants.

Does Spain support energy storage? Spain already backs energy storage with more than €600 million of NextGenEU funding which was allocated as part of Spain's post-Covid Recovery, Transformation, and Resilience Plan. From pv magazine España.

Can Spain deploy large-scale energy storage with co-financing of 85%? The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to 85%. The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain.
