

ENERGY STORAGE PROPERTY INSURANCE

Why do you need warranty insurance for your energy storage system? Our warranty insurance solutions help to secure your sustainable business in the long run. Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more.

Why do we need reliable energy storage systems? Renewables like wind and solar energy are intermittent by nature. To successfully master the energy transition, reliable energy storage systems are a must to provide the necessary supply stability.

How long do energy storage systems last? Energy storage systems often involve the complex integration of multiple high-tech components. These are all prone to failure and malfunction, particularly over long periods of ten years and more. As a manufacturer and system integrator you have to provide your customers with warranties.

Then, of course, once built, commercial property insurance provides coverage against similar perils that could damage or destroy completed infrastructure ??? everything from ???
