Does Eos have a 216 MWh order with City Utilities? This follows the recent 216 MWh order with City Utilities, showcasing Eos??? growing presence in the energy storage market. Eos Energy Enterprises, Inc. is accelerating the shift to American energy independence with positively ingenious solutions that transform how the world stores power.

Where is Eos headquartered? Eos was founded in 2008 and is headquartered in Edison, New Jersey. For more information about Eos (NASDAQ: EOSE), visit [eose.com](http://eose.com). IEP is a technology agnostic, independent power producer which seeks to build, own and operate a portfolio of generation assets that offer investors attractive financial returns.

What makes EOS a good battery? Safe, simple, durable, flexible, and available, our commercially-proven, U.S.-manufactured battery technology overcomes the limitations of conventional lithium-ion in 3- to 12- hour intraday applications. It???s how, at Eos, we???re putting American ingenuity to work every day to create a positive future for everyone.

Are EOS batteries flammable? Eos???s technology is also specifically designed for long-duration grid-scale stationary battery storage that can assist in meeting the energy grids??? growing demand with increasing amounts of renewable energy penetration. Critically, Eos batteries are non-flammable and do not require active cooling to operate.

How long do EOS batteries last? Eos manufactures energy storage solutions with a duration of 3 to 12 hours. Its Znyth batteries are made using non-rare earth materials, and can be 100% recycled after their projected 20-year useful life.
