

EP SYSTEMS HAITI

What is EP Systems? EP Systems provides high-power scalable powertrains that are certifiable for electrified aviation. It develops energy storage systems, DC fast-charging stations, and electric propulsion products for Aerospace, Defense, Automotive, Marine, and Industrial Traction industries.

Does EP systems have a battery system? EP Systems already has numerous battery systems currently powering flight demonstrator vehicles, including NASA's X-57 and Bell's Nexus air taxi. Jason Pritchard is the Editor of eVTOL Insights. He holds a BA from Leicester's De Montfort University and has worked in Journalism and Public Relations for more than a decade.

Who is EPs & why should you choose EPs? As a leader in energy storage systems for electric aviation, EPS is powering a revolution for smart, efficient, eco-friendly solutions. At EPS, we've flown it all: fixed wing, eVTOL, cargo drones, unmanned underwater submarines, and seaplanes. We are endorsed by some of the largest, most respected aviation companies in the world.

Why should you choose EP Systems? EP Systems has numerous battery systems currently powering customer flight demonstrator vehicles (e.g., NASA X-57, Bell Nexus, Aurora Flight Sciences Pegasus, Embraer Ipanema, and Boeing CAV). Advanced features produce safer battery systems resulting in a perfect safety record in field.

Why is EPs a good choice for Elfly? EPS's state-of-the-art battery systems have demonstrated unparalleled performance, safety, and longevity, making them an ideal choice for Elfly's research objectives. We are thrilled to collaborate with Elfly on its pioneering research project," said Nathan Millecam, CEO of Electric Power Systems.

EP SYSTEMS HAITI

What is Epic system? The EPiC System is designed to be adaptable to a wide range of applications and uses, allowing customers the flexibility needed to innovate and design future generation mobility solutions while leveraging economies of scale and rapid product support.
