

LIQUID COOLING ENERGY STORAGE SYSTEM IP55 2000

Who is exergy international? Exergy International Srl, part of China TICA Group, is an Italian firm and a leading provider of clean energy technologies. Exergy's main activity is focused on the design, engineering and manufacturing of Organic Rankine Cycle (ORC) systems with the pioneering Radial Outflow Turbine.

Who is exergy Orc? Exergy ORC |13,691 followers on LinkedIn. Unleashing potential, Powering the Future [EXERGY INTERNATIONAL Srl is a leading provider of clean energy technologies. We are expert in the design, engineering, manufacturing of Organic Rankine Cycle (ORC) systems with the pioneering Radial Outflow Turbine.

Why should you choose exergy? Thanks to our core technology, Exergy???s ORC systems perform with greater efficiency and flexibilitythan traditional steam Rankine cycle systems, helping customers to invest in clean energy projects with more profitable heat recovery solutions.

What is exergy doing now? In 2019, Exergy charted a new course following its acquisition by Nanjing TICA Thermal Technology Co. Ltd. Through this new strategic alliance, Exergy is able to offer the global market a vast and competitive range of clean-technologies and green power generation solutions.

What does exergy do? This includes R&D, testing, engineering, project management and after-sales service. EXERGY is part of China TICA Group, an high-tech enterprise specialized in R&D, manufacturing, sales and service of environment cleaning solutions and thermal energy utilization.

Why is exergy a key enabler for the decarbonization of the energy sector? Exergy's proprietary technologies, covered by several patents, allow for a highly efficient energy productionvia the exploitation of heat sources from geothermal energy, waste heat from industry, biomass and concentrated

solar power, thus being a key enabler for the decarbonization of the energy sector!
