---

What is the Fiji urban water supply & wastewater management project?  
???The Fiji Urban Water Supply and Wastewater Management Project???  
is being implemented with ADB,EIB,and GCF support. The project will  
construct a new 40ML/day WTP to enhance the Suva-Nausori water  
supply system. Augmentation,repairs,and expansion of the service area  
for the Kinoya WWTP are also planned to support the wastewater sector.

Does Fiji have a water supply system? Source: IMF (2017) WAF cannot  
operational costcover and personnel expenses from income, so they  
depend heavily on government subsidies. Residents of Fiji have learned  
about this from the ???Strategic Plan 2017 -2019???. On the other hand,a  
WAF leaflet announced that they provide water at very low costs.

Does Fiji have a problem with water supply? During the launch of the ADB  
Asian Development Outlook April 2023 report yesterday,regional director  
of ADB???'s Pacific Subregional office in Fiji Aaron Batten said Fiji had a  
major challengewith access to sufficient water supply.

Who manages liquid commercial waste in Fiji? ???National Liquid Trade  
waste policy for Discharge to Wastewater System Owned and Operated  
by Water Authority of Fiji??? (WAF,The Department of Water and  
Wastewater) indicates that WAF is the main service provider for  
wastewater services in Fiji and has the responsibility of managing the  
liquid commercial waste.

How much water is lost to leakage in Fiji? WAF chief executive officer Dr  
Amit Chanan recently said 50 per centof the water piped to households  
was lost to leakage at huge cost to government. Fiji faces a deficit of  
about three million litres of water per day and this is expected to increase  
to seven million litres per day as [???
