Does French Guiana have a pluriannual energy program? As Guadeloupe, Martinique, Reunion and Mayotte, French Guiana has its own pluriannual energy programming. With an objective of energy autonomy set on the 2030 horizon, they have to accelerate the large-scale clean energy deployment to improve energy access.

Does French Guiana have a lack of energy? The lack of access to energy in the inland areas is a key issue at the heart of French Guiana's pluriannual energy programming. With an electrification rate of dwellings four times lower than the regional average, the energy precariousness, if no further action is taken, should worsen.
