Does Guernsey have on-island solar? Alan Bates, CEO of Guernsey Electricity Community solar Guernsey has already started on-island renewable generation with community-scale solar arrays feeding over 350kW of renewable solar power into the grid. This means that no matter your property size, a portion of your electricity will always come from on-island solar energy.

Could solar panels save guernsey's 'mouth-watering' economy? Jack Fletcher, from Renew Guernsey, told ITV News that widespread solar panel installation across Guernsey could not only produce greener energy, reducing the island's carbon footprint, but could also bring "mouth-watering" economic benefits to the island.

Does Guernsey have electricity? Over 93% of electricity in Guernsey is renewable. Our island's imported electricity is sourced from 100% renewable energy, including solar, wind and hydroelectricity. This is brought into the island through a subsea cable and distributed to every home and business using an underground network of cables.

Is there a waiting list for solar panels in Guernsey? Guernsey firms say there is now a six-month waiting list to have solar panels installed. Credit: ITV Channel Guernsey is seeing an increase in demand for solar panels to be installed on houses with homeowners looking for cheaper energy alternatives. There is now a six-month waiting list for islanders to have panels installed on their homes.

What is the biggest solar project in Guernsey? A decision on the application for the 8.33 acre farm, which is a similar size to eight football pitches, will be decided at a later date. Nick Crolla, head of sales and marketing at Rubis, told BBC Radio Guernsey: "It is going to be the largest solar project in Guernsey."
