Why should you choose Electric in Guernsey? In Guernsey today,over 90% of the electricity we use annually comes from renewable sources such as hydro,windand solar power. So when you choose electric ??? whether to heat your home,drive around,or cook your dinner ??? enjoy peace of mindthat your choice is helping Guernsey take a step towards a cleaner,greener future for our island.

Why do we use fossil fuels in Guernsey? Unlike electric, fossil fuel-powered heating boilers and vehicle engines lose valuable energy when the fuel you've paid for is converted to the heat or power you need. This translates into us paying for greenhouse gas emissions. The fossil-fuels used every day by people in Guernsey include heating oil, LPG gas, petrol and diesel.

GUERNSEY SOLAR ENERGY GENERATOR FOR HOME

How many panels should a guernsey home have? A typical Guernsey home has at least one roof that faces east,south or west,or a flat roof that may be open to all the sun???s orientations. From a few panels to four panels or more and typically 6 to 10 panels,you can maximise your generation by maximising your roof spaces.
