

# HOW LONG CAN DRINKS BE KEPT IN A LOCKER

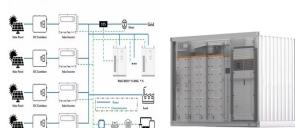

How long does a bottle of alcohol last? The key factors affecting alcohol shelf life are the type of alcohol, storage conditions, and whether the bottle has been opened. Unopened spirits like whiskey, vodka, and rum can last indefinitely due to their high alcohol content. However, once opened, they should ideally be consumed within 1 to 2 years for optimal taste.

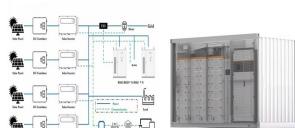

How long do unopened bottles of liqueur last? When it comes to storing liqueur, unopened bottles of liqueur last for a longer period of time than opened bottles. This is because the contents of the bottle are not exposed to air, light, and other elements that can cause degradation of the liquid. Unopened bottles can last up to two years if stored properly in a cool, dark place.

How long does alcohol last if unopened? Distilled spirits and hard liquor have an indefinite shelf life, if unopened and stored properly. Proper storage of alcohol and keeping opened bottles sealed can prevent the quality of your liquor from deteriorating. Does Liquor Expire?

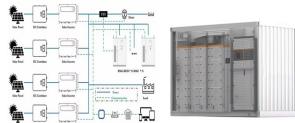

Can liqueurs be stored at room temperature? Liqueurs Most liqueurs like Grand Marnier, Campari, Chartreuse, and St. Germaine can be stored at room temperature and last for a very long time, provided they have around 20 percent or more alcohol by volume. The more alcohol they contain, the longer the shelf life. There is one caveat, however.

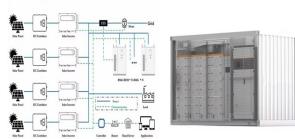

Do you need to store your Liquor properly? You also need to store your liquor properly if you intend to sell it through online liquor sales, particularly if you're shipping alcohol long distances. Like everything else in your bar, your booze has its own expiration dates that you need to be aware of.
