STEP 3: Place the ice box in the freezer for two hours. STEP 4: Remove from the freezer and place it into the air cooler's ice container to cool down the water temperature. [Recycling and Reuse] After using it for a long time, the ice crystal turns into jelly, please put it back into the refrigerator. It can be recycled and reused.

???Strong Cold Storage???Ice crystal box contain dry ice crystal particles, coarse particles, good expansion, strong cold storage, large capacity and high energy storage for long-term cooling ???

Indeed, during frozen storage, ice recrystallization caused by temperature variations yields bigger ice crystals and lowers the quality of the food product (Or? et al., 2012a, 2012b; Cooling performance of a thermal energy storage-based portable box for cold chain applications. J. Energy Stor., 28 (2020), p. 101238, 10.1016/j.est.2020.101238.

Magnetic field assisted preservation is a novel storage method which has been verified in the cryopreservation of animal and plant tissues [[11], [12], [13], [14]].Magnetic field has an impact on ice crystal nucleation by affecting on physical properties of water (e.g., hydrogen bonding, specific heat, viscosity and surface tension), the water molecules may be reorientated and/or disturbed

???High Capacity???Freezer Packs are large capacity, containing dry ice crystal particles, coarse particles, good expansion, strong cold storage, high energy storage and long-term cooling ???

# ICE CRYSTAL BOX ENERGY STORAGE BOX

Keeping crystals in a dedicated storage box simply shows how special and sacred they are. Choose a jewelry box made from natural materials like wood or stone. They have a neutral energy that nurtures the crystals stored inside. Natural stone containers are both sturdy and beautiful crystal storage. Their natural energy also provides energy
