

IRELAND EATON XSTORAGE

Who is Eaton xstorage home? Eaton is a global power management with a 100-year history that works with lithium-ion battery technology from Nissan, the world's leading electric vehicle manufacturer by volume. Eaton only works with highly qualified installers, who are members of the Eaton xStorage Home Authorised Installer Partner Programme.

What are Eaton Nissan xStorage Buildings? Eaton Nissan xStorage Buildings are designed to help overcome challenges by selecting the right power sources according to the load, grid constraints, and the availability of renewable energy.

How does xstorage home work? xStorage Home can provide homeowners with energy if the grid fails, powering critical loads such as lights and security systems. xStorage Home can save on energy bills by using more solar power and harvesting cheap off-peak electricity.

Is xstorage home authentic? Authenticated: The product is verified as being authentic; however, this does not guarantee the condition or fit for purpose of the product. xStorage Home is a complete system, housed in a single unit, that integrates everything needed to manage and store energy in homes. See what xStorage Home can do for homeowners.

When should I use xstorage home? xStorage Home can be specifically useful when the maximum power consumption of the household is limited by the energy provider, for example through a utility contract. Any consumption above the contracted maximum peak power consumption will be penalised and the homeowner will be charged accordingly.

Are xstorage home battery systems safe? xStorage Home battery systems have been developed to meet the highest electrical safety standards. Eaton is a global power management leader working with highly qualified installers. You will be able to follow the generation and consumption of
