Wholesale Solar Panels For Sale Homeowners and all types of businesses these days are seeking ways to cut down on their power consumption bill and reduce the overall operational cost. For this purpose, solar energy is the best alternative for them to be cost-effective and energy-efficient. In the upcoming decade, energy costs are estimated to become double. Solar panels ???

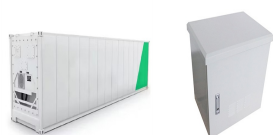

Maximizing Solar Harvest: The Best Direction for Solar Panels in India's Varied Landscapes. In India, the demand for electricity is growing fast, and there are often shortages. Finding the best direction for solar panels is key to solve these problems. This will help ensure the country has the energy it needs.

Subsidy is only for Indian made panels, we chose non Indian panels so couldn't get subsidy. Only paying fixed charges now. Earlier the average yearly bill was more than 80k. also be aware, most manufacturers claim 25 years warranty on their panels, but its only performance warranty, the manufacturer warranty is usually 10 years or 15 years.

I recently researched solar panels replacing the conventional electric. In India It'll take about 3 to 3.5 lakhs for 5kw of setup for solar panels including UPS, batteries and circuits. 1kw of solar panels will generate 4-5 units of electricity a day. So, my calculation is a regular home in India that consumes at least 250 - 300 units in a month.

My friend has a 7kw solar plant installed at his place for 5 lakh rupees. Assume avg electricity bill is 2,000/month Hence, 24,000/year With solar, best case scenario, electricity bill is 0 + govt pays you 2000 (100% of your consumption) for extra units fed back to the grid (highly unrealistic) Hence, savings is 4000/month Hence, 48,000/year savings. To recover 5 lakhs, it will take ???
