

ISRAEL HIGH BRIDGE SOLAR

Will a 130 MW solar project run next to a highway in Israel? Israeli developer Shikun & Binui Energy says it will operate a 130 MW solar project next to a highway in Israel for a period of 25 years. It will also include up to 240 MWh of storage. The Cross-Israel Highway Image: Tzofit Tor, Wikimedia Commons, CC BY-SA 4.0 DEED

How many solar-plus-storage projects are there in Israel? As of September 2023, Israel has two solar-plus-storage projects, with the first being the Arad Valley 1's 17-MW solar farm with an energy storage system of 31 MWh, and the second being Sde Nitzan's 23 MW of solar and 40 MWh of storage capacity project.

Does Israel have a potential for solar energy production? Israel's location and climate allow a high potential for solar energy production. This report investigates solar and renewable energy development in Israel's past, and present, as well as future plans. It presents main players in the space such as existing and future government and independent initiatives.

Will solar help Israel achieve energy independence? The Israeli government is betting hard on solar and energy storage to help the nation towards energy independence. Energy minister Yuval Steinitz this week announced a new plan to deploy around 15 GW more solar capacity to help raise the 2030 target for the proportion of national electricity drawn from renewables from 17% to 30%.

When will Israel's largest solar power plant be built? In December 2021, it was announced that Shikun & Binui won a contract to build a 330 MW solar power plant near Dimona, which is expected to become Israel's largest upon its completion in 2023. The solar park will also house a 210 MW energy storage facility.

Will teralight build a solar park in Israel? In April 2023, it was announced that energy company Teralight would be building one of Israel's largest solar parks, the Ta'anach PV project, in the Jezreel Valley, northern Israel. Ta'anach solar will have 250 MW of installed capacity and 550 MWh of solar-plus-storage.
