

ITALIAN ENGLE ENERGY STORAGE COMPANY

What is Enel doing in Italy? Enel is leading this revolution with advanced projects both nationally and internationally, thereby contributing to Grid stabilization and decarbonization. Since the 1980s, Italy has shown a constant propensity to innovate in the field of "classic" renewables, with the use of hydropower and pumped storage systems.

How much storage capacity does Enel have? Their combined storage capacity is 6.6 GWh. The company's spokesperson also revealed that around 40% of the remaining 11 GW of capacity awarded to Enel in the auction will come from renewable energy sources, while the remaining 60% will come from natural gas power plants. Italy began capacity market auctions in 2019.

How is Italy preparing for the energy transition? We???re leading Italy in its path to the energy transition. We???re fielding a solid renewable capacity that we expect to boost in the coming years. A green presence throughout its territory, in order to achieve a 100% renewable, constantly growing, energy production.
