

IWIN ENERGY NORTHERN MARIANA ISLANDS

How does CNMI meet its energy needs? The Commonwealth of the Northern Mariana Islands (CNMI) meets most of its energy needs with imported petroleum products. In 2021, refined petroleum products were CNMI's top import and accounted for 18% of the Commonwealth's total import costs that year.

Which sectors use the most electricity in the Northern Mariana Islands? The commercial sector, led by tourism, is the largest electricity-consuming sector in the Northern Mariana Islands. 53 CNMI hotels use electricity for air conditioning, water heating, water purification, and lighting.

How much does CNMI charge per kilowatt-hour? In February 2024, CNMI charged approximately 25 cents per kilowatt-hour for electricity. The CNMI Office of Planning and Development has received proposals for several large solar energy projects, including a 20-megawatt solar photovoltaic (PV) facility on Saipan, which is scheduled to come online in 2025.

Why is the Northern Mariana Islands a good place to live? The Commonwealth of the Northern Mariana Islands benefits from its trading relationship with the federal government of the United States and cheap trained labor from Asia. The CNMI's economy has historically relied on tourism, mostly from Japan, and the garment manufacturing sector.

Who controls the executive branch in the Northern Mariana Islands? Replicating the separation of powers elsewhere in the United States, the executive branch is headed by the governor of the Northern Mariana Islands; legislative power is vested in the bicameral Northern Mariana Islands Commonwealth Legislature and the judicial power is vested in the CNMI Supreme Court and the trial courts inferior to it.

IWIN ENERGY NORTHERN MARIANA ISLANDS

Is CNMI planning a large solar energy project? There have been proposals for several large solar energy projects in the CNMI's Office of Planning and Development in recent years. Currently, a 20-megawatt solar PV facility on Saipan is in development, which will be the first utility-scale solar farm in the territory and will include a battery electric storage system.
