

# JINKO SOLAR TRINIDAD AND TOBAGO

Where are Jinko Solar products made? Based in China, Jinko Solar is a huge multi-national, vertically integrated company, employing over 15,000 people in 70 countries and establishing manufacturing facilities in China, Malaysia and the US. I'm a product detail. I'm a great place to add more information about your product such as sizing, material, care and cleaning instructions.

Who is Jinko Solar? Jinko Solar is the biggest and one of the most innovative photovoltaic module manufacturers in the world. At present, Jinko Solar's products serve more than 3,000 customers in more than 160 countries around the world. ???The energy transition trend is gaining momentum throughout Europe, and in Central Europe in particular.

Are Jinko Solar a good company? Well, Jinko Solar are a volume manufacturer and they are clearly extremely good at what they do. To ship over 14GW of solar panels in a year is an incredible achievement. Their focus is on volume, which drives down cost. This means the focus is pushed more towards a mass market solution, rather than a premium solution.

Where is Jinko Solar located in Australia? Jinko Solar has opened several offices in Australia, from Sydney, to Melbourne, Brisbane, Adelaide and Perth. This has improved its supply and distribution of their panels throughout the country and also helped improve the customer service to their customers.

How much does a Jinko Solar System cost? Jinko solar panels have been rated 4.5 Stars out of 5 by independent review platform in Australia. How much does a Jinko solar panel system cost? A 6.6kW system with 20 X 330w Jinko solar panels and a 5kW Growatt inverter will cost around \$4000 for a standard installation in Brisbane; whereas with a Fronius inverter it will cost around \$5100.
