

LATEST GOOD NEWS ON ENERGY STORAGE

What's happening with energy storage in 2024? The start of 2024 saw the Edwards & Sanborn project, featuring 3,287MWh of battery storage alongside 864MW of solar PV, come fully online. Image: Terra-Gen As we welcome the end of another exciting, if sometimes challenging year, here are the most-read news stories on Energy-Storage.news for 2024.

Why is China promoting energy storage at the 2025 two sessions? The buzzword ???energy storage??? at the 2025 Two Sessions underscores China???s strategic focus on building a resilient, sustainable, and diverse energy system, contributing new efforts to a sustainable global future. The country???s progress in new-type energy storage highlights how innovation can drive both economic and environmental progress worldwide.

Is energy storage a good idea for small businesses? On a smaller scale,energy storage is unlocking new economic opportunities for small businesses. By integrating renewable power with agriculture,individuals can store and supply excess energy,enhancing national grid resilience and diversity while generating profit. China has been a global leader in renewable energy for a decade.

Why is energy storage important? A crucial factor motivating these safety improvements ??? and the broader focus on developing energy storage solutions more generally ??? has been the realization that energy storage is a necessary component in scaling up clean energy solutions to power society.

Did battery energy storage systems help the energy system recover? Battery energy storage systems (BESS) from several firms helped the energy system recoverafter the NSL interconnector,which connects the UK and Norway,suddenly stopped exporting power to the UK.

LATEST GOOD NEWS ON ENERGY STORAGE

Which battery energy storage projects have been successful in Western Australia? 2.6GWh of utility-scale battery energy storage projects have been successful in Western Australia???'s first Capacity Investment Scheme tender. Energy storage developer Energy Vault is set to fully acquire the 125MW/1GWh Stoney Creek battery energy storage system (BESS) in New South Wales, Australia, from Enervest Group.

The Energy Storage Report is now available to download. In it, you'll find the best of our content from Energy-Storage.news Premium and PV Tech Power, as well as new articles covering deployments, technology, policy ???

The latest stats from the analysts show that the cumulative stationary storage fleet will reach 168 GWh this year, making a huge jump from 96.1 GWh deployed in 2023. "A lot about batteries in 2025" Given this ???
