

How do you get the third energy storage device in Genshin Impact? To obtain the third Energy Storage Device in Genshin Impact, return to the starting point and proceed directly ahead. At the end, make a left turn to locate the third Deactivated Research Terminal. As the group approaches the exit, an unexpected barrier suddenly materializes, trapping everyone inside the mine.

How do you find the last energy storage device? Place the energy storage device near it and break the second seal, which will open more paths. Once that is done, go back to your original spot to pick up the last device. After collecting the third energy storage device, go straight and turn left at the end. You will find the last research terminal near a broken mine car.

How do you collect energy storage devices? Place the energy storage device near it and break the second seal, which will open more paths. Once that is done,go back to your original spot to pick up the last device. After collecting the third energy storage device,go straight and turn left at the end.

How do I activate all the energy storage terminals? So, let???s see what steps you need to take to activate all the terminals: Research Terminal #1: Take the first Energy Storage Device and move forward and to the right. You???ll have practically no other options, so you???ll know where to go right away.

Where do you find energy devices? The starting point of the puzzle is at the entrance of the Geode Mine Shaft, where Caterpillar and Lanoire are standing. There are three Energy Devices (blue "lamps")???one on the left, one in front, and one on the right. You must first pick up the Energy Device on the left, which is hidden behind a Geode.

Where can I find fixed storage devices & energy transfer devices? Fixed Storage Devices and Energy Transfer Devices are an exploration mechanic in Fontainecurrently found in the Liffey Region and Fontaine Research Institute of Kinetic Energy Engineering Region. They can be found both underwater and on land. Fixed Storage Devices are stationary and Energy Transfer Devices can be moved by the player.
