

MACAO ELITE BATTERY SYSTEMS LTD

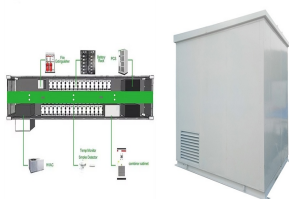

What is elite battery systems? ELITE BATTERY SYSTEMS. A sustainable, clean and thriving future for the planet requires a critical enabler ??? affordable battery systems. At Elite Battery Systems, our mission as a battery pack supplier is to accelerate the path to this future with a better modular battery manufacturing process and platform.

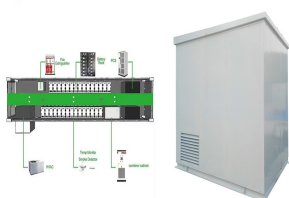

Why do integrators need elite batteries? Elite batteries being modular, integrators can capitalise on their developments across their whole product range and therefore significantly improve their return on investment. Innovate to make integration of high-performance batteries possible in different applications. Combined battery pack system

Why should integrators choose AOBO batteries? AOBO batteries being modular, integrators can capitalize on their developments on their whole product range and therefore significantly improve their return on investment. Our power solutions are also used in the latest robotic and unmanned applications and offer outstanding energy density and power output over a wide range of conditions.

What is smart battery management system? Part of this development has been the integration of SMART electronic systems which include Battery Management Systems (BMS), wireless connectivity and mobile monitoring to enhance the performance and longevity of the battery. What is a SMART battery?
