

# MALDIVES SOLAR ENERGY CLUSTER

What is the Maldives solar project? The Maldives solar project is a 36 MW solar power project and 50 MWh of battery energy storage solutions development across various islands in the Maldives. It also includes grid modernization for the integration of variable renewable energy with the grid, which will be financed under the proposed AIIB loan.

Why solar PV with storage in Maldives? Solar PV with storage has proven suitable and competitive for Maldives' high penetration of renewable energy (POISED type B projects), with an average fuel savings of 25%. The concept design of hybrid systems (efficient diesel generators + solar PV plants + energy storage) has resulted in success for Maldives.

Will a 5 MW solar installation make Maldives a popular destination? Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

Should investors invest in sustainable solar projects in the Maldives? In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

How much solar energy does Maldives receive? ??? Maldives is located in the Equator and receives abundant solar energy. ??? Maldives Receives about 400 Million MW of Solar Energy Per Annum. ??? Average Sunny Days Per Annum ??? 280 ??? 300 Sunny Days ??? Daily Average Global Irradiation in Maldives is 4.5 ??? 6 kWh/m<sup>2</sup>/day 3 .

When will the Aspire project start in the Maldives? The inauguration of the 5 MW solar project on December 7, 2022 under the ASPIRE project has been a game changer in the energy transition journey of the Maldives .

Taj Exotica Resort & Spa, Maldives announces the operationalization of Maldives' largest operational floating solar park. Executed in partnership with Swimsol, the global leader in offshore marine photovoltaics, the 1,080 kWp solar park is the largest operating Solar Sea system in the Maldives. Speaking on this occasion, Ms. Corinna Luebbe Cluster General ???

Link Road Solar energy project. With this project aiming to have a cumulative installation of 6.5MW solar photovoltaic installations in the Maldives, the commencement of the solar panel project on the Link Road is the most large scale solar-project to be carried out in the Maldives.

This initiative, in line with IHCL's ESG+ framework- Paathya, is a reflection of our commitment towards energy conservation, minimisation of ecological impact and preserving the natural beauty of the Maldives, says Ms. Corinna Luebbe- Cluster General Manager, Taj Maldives. Taj Exotica Resort & Spa is an environmentally responsible resort

## Commercial and Industrial ESS

Air Cooling / Liquid Cooling  
 • Budget Friendly Solution  
 • Increased Energy Efficiency  
 • Modular Design for Flexible Expansion

Speaking on this occasion, Corinna Luebbe, Cluster General Manager, Maldives, said "We are proud to partner with Swimsol for one of the largest Solar Parks in Maldives". This is in line with IHCL's ESG+ framework of Paathya with its commitment towards energy conservation and long term goal of deriving no less than 50 per cent of energy

World's largest solar system floating at sea has been installed at LUX\* South Ari Atoll in Maldives. This unique technology called SolarSea gathers solar energy directly on the ocean to power the island in an eco-friendly fashion ??? a technological breakthrough that changes the perspective on renewable energy. As part of the resort's commitment to [???

# MALDIVES SOLAR ENERGY CLUSTER

Dusit Thani Maldives has installed rooftop solar panels on its main buildings to reduce its carbon footprint and create clean, renewable energy. Built especially for a tropical climate, each of the high-quality 797 PV panels will feed the grid and reduce annual diesel consumption by up to 86,500 litres. This means the resort's carbon dioxide [???

Integrating the system into the resort's grid and dimensioning of the system with existing examples of solar energy systems in the Maldives will be presented at the workshop, allowing the participants a clearer perspective into the subject of solar energy technology in the Maldives. Sun Siyam Resorts appoints Pasan Wijewardana as Cluster

According to the above assessment, it is find out in Hurawalhi, Maldives solar-tidal energy system is better alternative of conventional energy sources for electricity generation. The net present cost and levelized cost of energy of solar-tidal energy system are \$ 1359,438 and \$0.1189, respectively.
