A solar power station is a complex engineering structure. And every stage of its design and construction must be carried out by professionals in their field. Engaged in the construction of turnkey solar power plants, our company always pays special attention to the quality of the installation work we perform.

The company Green Grow Energy (GGEN) has completed the installation of the first Montenegrin solar power plant on solid ground. It is located in **??evo** near Cetinje and has 8,120 panels with an individual power of 545 watts. As previously announced, the company, whose owners are citizens of Montenegro and???

According to the Energy Balance for this year, electricity production from all sources will be 3,598 GWh, of which 41 GWh from solar power plants. According to the structure, 51.2% of electricity would be produced by hydropower plants, 38.55% by thermal power plants, 9.11% by wind power plants and 1.14% by solar power plants.

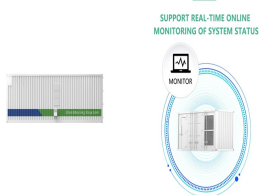

The company Green Grow Energy (GGEN) completed the installation of the first Montenegrin solar power plant on solid ground, on **??evo** near Cetinje, with the installation of 8,120 panels, individual power 545 watts. The company, whose owners are citizens of Montenegro and Turkey, previously announced that the planned annual production of electricity amounts to ???

The government also approved issued urban planning and technical requirements for a solar park near Nik??i??, the country's second-largest city. New Age Energy Tri submitted the application. Nik??i?? is also recognized as a favorable location for utility-scale solar power investments in Montenegro. A company called Somsol is developing a

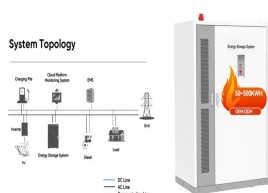

MONTENEGRO SOLAR POWER NEAR ME

The power supply to the house originates from the switchboard, to which single-phase or three-phase power is connected. The panel includes such consumer groups as lighting elements, sockets, power and utility groups. This distribution is important to ensure that each group receives sufficient energy according to the required power.

In Rudine, near Nikšić, Qair Montenegro has announced plans to build a new solar power plant and has submitted a request to the Environmental Protection Agency for a decision on the necessity of an Environmental Impact Assessment (EIA) study. The proposed Rudine solar power plant will have an installed capacity of 46.5 MW and will feature the ???
