Who is Myanmar Solar power trading? Myanmar Solar Power Trading Co.,Ltd is established in 2011 and we are one of the leading full-service providers for C & I projects, residential, industrial and large scale solar projects in Myanmar. From a single point of contact, we provide solar PV designs, calculations, consultations, installations and repair and maintenance services as well.

Does Myanmar use solar power? Myanmar has rich technical solar power potential, which is the highest in the Greater Mekong Subregion. However, in terms of installed capacity, Myanmar lags largely behind Thailand and Vietnam. Even so, the country does utilize solar power.

Why is SolarHome so popular in Myanmar? ???One of the crucial motives behind SolarHome is the Myanmar market landscape. In emerging markets power networks are built out slowly, which means these economies can lag in development in relative terms, which disadvantages the hard to access rural regions.

Can a solar power business help under-served communities in Myanmar? An exciting off-grid power business bringing affordable clean solar-energy to under-served communities in Myanmar has switched into fund-raising mode.

Which Myanmar companies install solar home system equipment under the DRD program? The research included meetings with six Myanmar companies that install (and in some cases manufacture) solar home system equipment under the DRD program. Of these six companies, five were in Yangon and one was in Hpa An (Moe Ko San). Table 5 below summarizes key features of these companies.
