

MYSOL SOLAR CONGO REPUBLIC

What is Mysol grid? ABOUT MySol Grid MySol Grid (formerly ENGIE PowerCorner) started in 2015 as an incubation project within the ENGIE Group. In 2016, ENGIE PowerCorner commissioned its first 16 kWp mini-grid unit in Ketumbeine, a remote village in Northern Tanzania, powering 120 houses and businesses.

Is Mysol PAYGO a good investment for small businesses? Our most powerful MySol PAYGo system for small businesses is a productive investment as it has enough capacity to cool drinks, charge phones and provide TV entertainment. It includes: Essential off-grid services require big capacity, high-quality systems with reliable after-sales service.

What is Mysol grid doing in 2021? Over the course of 2019 to 2021, MySol Grid was taking part in a study conducted by the Energy2Equal program by IFC that aims to expand women's access to jobs, leadership positions, and entrepreneurial opportunities in corporate value chains within the renewable energy space.

What is a Mysol lighting system? Our entry-level MySol system meets basic lighting needs, while enabling customers to access useful upgrades. It is a clean, safe and economical alternative to kerosene and is the lowest cost possible without sacrificing on quality. It powers:

Why should you choose Mysol? More than 9 million people have benefited from increased health and prosperity thanks to our solar energy solutions. With MySol, we offer the widest range of PAYGo solar home systems throughout Africa and our certified and quality assured kits have been proven in the field since 2011.

What is a decentralized solar PV energy meter? Decentralized solar PV energy at a large scale: smart electricity meters connect households, local businesses and public services such as schools and healthcare centers to our reliable, affordable and renewable mini-grid electricity. They can be
