

NEW ENERGY AND ENERGY STORAGE SERVICE HEADQUARTERS BASE

Where will the New Energies Service Station be located? The New Energies Service Station is to be located on a part of the vacant land surrounding the Geelong Refinery, proximate to the Princes Highway, which is owned by Viva Energy. The Victorian Government is also contributing AUD\$1 million to the project via the Renewable Hydrogen Commercialisation Pathways Fund.

Where is EVE Energy's regional headquarters located? EVE Energy's First Regional Headquarters Officially Unveils! On December 24, the unveiling ceremony of EVE Energy's regional headquarters in East China was successfully held. The regional headquarters is located at Jiangsu EVE-Linyang Energy Storage Technology Co., Ltd. (hereinafter referred to as "EVE-Linyang").

What is EVE Energy's 10 GWh energy storage battery project? It has built a 10 GWh energy storage battery project in the Qidong Economic Development Zone. The project commenced in January 2022 and was completed and put into operation on November 18, 2022. It is EVE Energy's first large-scale production base targeted at the East China market.

Why should Eve energy build a regional headquarters? Liu Jincheng, Chairman of EVE Energy, stated, "Improving capabilities relies on organizational development. The completion and use of the regional headquarters is a crucial move for our company's strategic development, helping the company to achieve better sales and provide more services in the regional market."

What is the largest grid-forming energy storage station in China? This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong Composite Photovoltaic Base Project. This energy storage station is one of the first batch of projects supporting the
