

# NEW ENERGY STORAGE BATTERY COMPANY FOR THE ITALIAN WINTER OLYMPICS

---

How will Italy support energy storage? Italy is one of Europe's fastest growing energy storage markets and recently introduced mechanisms to support this nascent sector. To meet its decarbonisation goals, it set out the need to build 9 GW of new grid-scale energy storage and upped its renewables targets with the aim of having 65% of electricity from green energy by 2030\*.

Is Italy a good place to invest in energy storage? Italy is an incredibly interesting and fast-growing market for renewables and there's significant untapped potential in the energy storage sector. Big batteries like the ones we're developing with this new joint venture make the most of when it's sunny and windy by storing abundant green energy and releasing it back into the grid when it's needed.

What is nextA's new battery storage project? The new JV with Milan-based Nexta will develop up to 1.5 GW of commercial-scale battery storage systems across several projects largely in the south of the country. Once operational, the projects are estimated to be capable of storing and releasing back into the grid enough electricity to power up to a million homes a day.

Italy is one of Europe's fastest growing energy storage markets and recently introduced mechanisms to support this nascent sector. To meet its decarbonisation goals, it set out the need to build 9 GW of new grid-scale

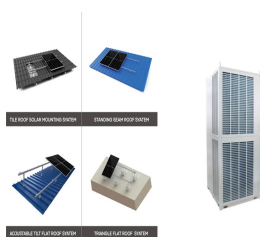

K+S Bohrer Italia is the leading company in the preparation of ski and snowboard slopes. As an Official Supporter of the Olympic and Paralympic Winter Games Milano Cortina 2026, the company will provide its best

# NEW ENERGY STORAGE BATTERY COMPANY FOR THE ITALIAN WINTER OLYMPICS

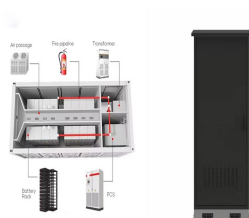

Villara Energy Systems launch's its state-of-the-art home battery, the VillaGrid. This revolutionary energy storage system (ESS) is the first of its kind to harness lithium titanate chemistry.

EnerDel, a leader in utility-scale lithium-ion battery energy storage systems, was contracted in 2010 to supply backup power for the substations that support the XXII Olympic Winter Games. The company's system has been ???

Energy storage analysts at TrendForce said that the energy storage market in Italy is expected to enter the peak period of large storage grid connection in the second half of the year. Italy's new energy storage capacity ???

Thanks to features such as the high reliability, long service life and high energy efficiency of CATL's battery systems, "renewable energy + energy storage" has more advantages in cost ???

Dozens of companies are now offering energy storage solutions. In this article, our energy storage expert has selected the most promising energy storage companies of 2024 and demonstrates how their technologies will ???

# NEW ENERGY STORAGE BATTERY COMPANY FOR THE ITALIAN WINTER OLYMPICS

SINENG Electric took part in the "new energy storage system" project, according to Zhou Bin, director of the company's energy storage solution department. The energy storage converters and energy storage battery ???

The company's Gigafactory mainly manufactures batteries and battery packs for Tesla vehicles and energy storage products. In February 2018, the Government of South Australia has partnered with Tesla to build which it ???

The company has developed a variety of battery energy storage systems for home, industrial and commercial energy storage systems applications that store solar and wind energy to provide a stable power supply during ???

Italian-made torches that combine innovation with sustainability The torches of the Olympic and Paralympic Winter Games will be made in the Milano Cortina 2026 host country, Italy. Each torch is lightweight, weighing ???
