Who makes Nordex wind turbines? As one of the world's largest wind turbine manufacturers, the Nordex Group offers high-yield, cost-efficient wind turbines that enable long-term and economical power generation from wind energy in all geographical and climatic conditions. With the Delta4000 platform, the Nordex Group relies on tried-and-tested series-production technology.

Who is Nordex group? The Nordex Group is one of the world's leading OEMs with 35 years of experience in manufacturing highly efficient wind turbines for global onshore markets.

Where is Nordex made? Nordex SE is a European company that designs, sells and manufactures wind turbines. The company's headquarters are in the German city of Rostock while management is in Hamburg. Nordex produces at sites in Germany, Brazil, India, Mexico and Poland and Spain. The main production facility is located at the headquarters in Rostock.

Is Nordex a Chinese company? However, the Company continues to be represented in China, particularly on the purchasing side. From a technical perspective, Nordex is focused on developing wind turbines for onshore sites that allow operators to produce environmentally friendly electricity at the lowest possible cost (Cost of Energy COE) in their respective regions.

Does Nordex operate in the offshore wind energy sector? For strategic reasons, Nordex does not operate in the offshore wind energy sector. Offshore wind turbines and projects differ significantly from their onshore equivalents, particularly in technical terms. In addition, the onshore segment represents well over 90% of the global wind energy market.
