

# OEG ENERGY GROUP SPAIN

Who are OEG offshore & OEG renewables? Delivering specialised offshore solutions for the energy transition through our leading companies: OEG Offshore and OEG Renewables.

Who is OEG offshore? OEG Offshore is the leading global owner and lessor of reusable offshore DNV certified containers. OEG Renewables is a frontrunner worldwide supplier offering customised services for offshore wind farms. A transformative year defined by continued strategic growth and diversification.

Who are OEG's subsidiaries? OEG's subsidiaries include OEG Offshore (owner and lessor of reusable offshore containers) and OEG Renewables (supplier offering offshore wind farm services) as well as Seajet Systems, 23 Degrees Renewables, Hughes Subsea, Bluestream Offshore, Pelagian Ltd., Specialist Marine Consultants and Fern Communications.

How can OEG offshore reduce the environmental impact of offshore energy operations? Our containers play a key role in reducing the environmental impact of offshore energy operations by transporting waste materials back on land for reprocessing. OEG Offshore is also building a fleet of intermodal cryogenic tanks for the growing transport needs of hydrogen production and captured carbon dioxide.

Why should you choose OEG? As a global leader, at OEG we ensure our customers??? offshore energy production operations are more efficient, more reliable, more environmentally sensitive, and safer, no matter how big or small, run-of-the-mill, or highly nuanced they are. Embracing a niche approach, we are a pivotal link in the global offshore energy production chain.
