Olympus Power, LLC is a privately held U.S. independent power company based in Morristown, NJ, which owns and manages power plants that sell electricity and thermal energy to utilities and industrial concerns. Our firm maintains full or partial equity interests in these projects in order to optimize these assets by better aligning interests.

Founded in 1996, Olympus Power Pvt. Ltd. had its roots established as a small start up much before. With a legacy and vision of a technical person as a founder, and support of a great team, it quickly rose to being a mainstream player in the back-up power supply market. Today, it is one of the leading manufacturers of industrial and domestic

Find out what works well at Olympus Power Ltd from the people who know best. Get the inside scoop on jobs, salaries, top office locations, and CEO insights. Compare pay for popular roles and read about the team's work-life balance. Uncover why ???

Olympus Power also provides utility scale battery storage that can either be standalone or co-located with renewables, such as solar and wind. The BESS imports grid power at times of low cost, and exports under contract with National Grid and the DNOs, providing balancing services for the grid, helping its stability.

Olympus Power has an installation solution that allows the use of solar panels at decommissioned landfill sites. Ground mounted "solar farms" can generate clean energy from the otherwise unusable land. In Warwickshire, we were commissioned by Veolia to install a
