

OPES SOLUTION BELGIUM

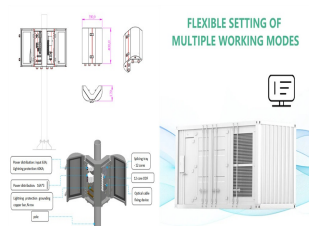

Who is Ops solutions? OPES Solutions is market leader for customized solar panels. customer-specific requirements in all technical and commercial aspects. Solar Panels that ensure access to affordable, reliable and modern energy Learn more Solar solutions designed to required specification that the application can be free from the grid Learn more

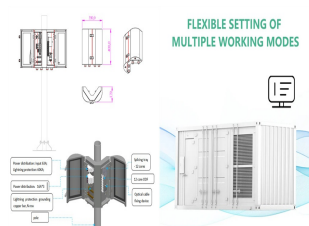

Why should you work at ops solutions? At OPES Solutions, everyone is encouraged to contribute to innovation. Every employee is a valuable part of our development and growth. Our vision is to make solar energy available everywhere in our community. Without a grid, seamless and from solar home systems to a caravan roof size ??? Right where it???s needed.

What certifications do Ops solutions have? OPES Solutions soon became the first manufacturer globally to obtain IEC 61215/61730 certification for the full range of off-grid solar modules, even as small as 0.9 Watt. In the same year, we obtained the QEHS certificate based on ISO9000, ISO14000, and ISO34000.

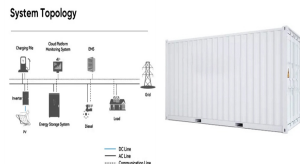

What makes Ops a great supplier? In particular, we appreciate having a supplier that does not require constant supervision to ensure product quality is maintained. OPES is one of those rare manufacturing success stories where a focus on the customer, patience and a commitment to ongoing improvement pays off.
